

Automotive Chemicals – Technical Sprays - Cleaning

Version: TS/002

Valvoline™ Contact Cleaner

High quality spray to clean electrical contacts.

Applications

Switches
Batteries
Contact points
Printed circuit board switches
Multiple sockets

Product characteristics

Powerful jet spray
High dissolving properties
Leaves no residue
Non-conductive
Non-corrosive
360° valve

Directions for use:

Before use, carefully read the directions on the packaging.

Valvoline™ Contact Cleaner should be at room temperature before use. The processing temperature should be between 5 to 30°C.

Shake before use.

Switch off electrical installations before treatment.

Spray the parts to be treated until the contamination has disappeared.

Contaminated contact cleaner should be regarded as chemical waste.

Only switch on the electric installation after the solvent has been evaporated.

Health & Safety

This product is not likely to present any significant health or safety hazards when properly used in the recommended application and good standards of personal hygiene are maintained. Reference is made to the Safety Data Sheet (SDS) which is available on request via your local sales office or via the internet <http://sds.valvoline.com>

Protect the environment

Take used chemicals to an authorized collection point. Comply with local regulations. Do not discharge into drains, soil or water.

Storage

We recommend to store all packages under cover. In case outside storage is unavoidable, drums should be laid horizontally to avoid the possible ingress of water and damage to drum markings. Products should never be stored above 60°C, exposed to hot sun or freezing conditions.
